*Rainier Vista 2001*

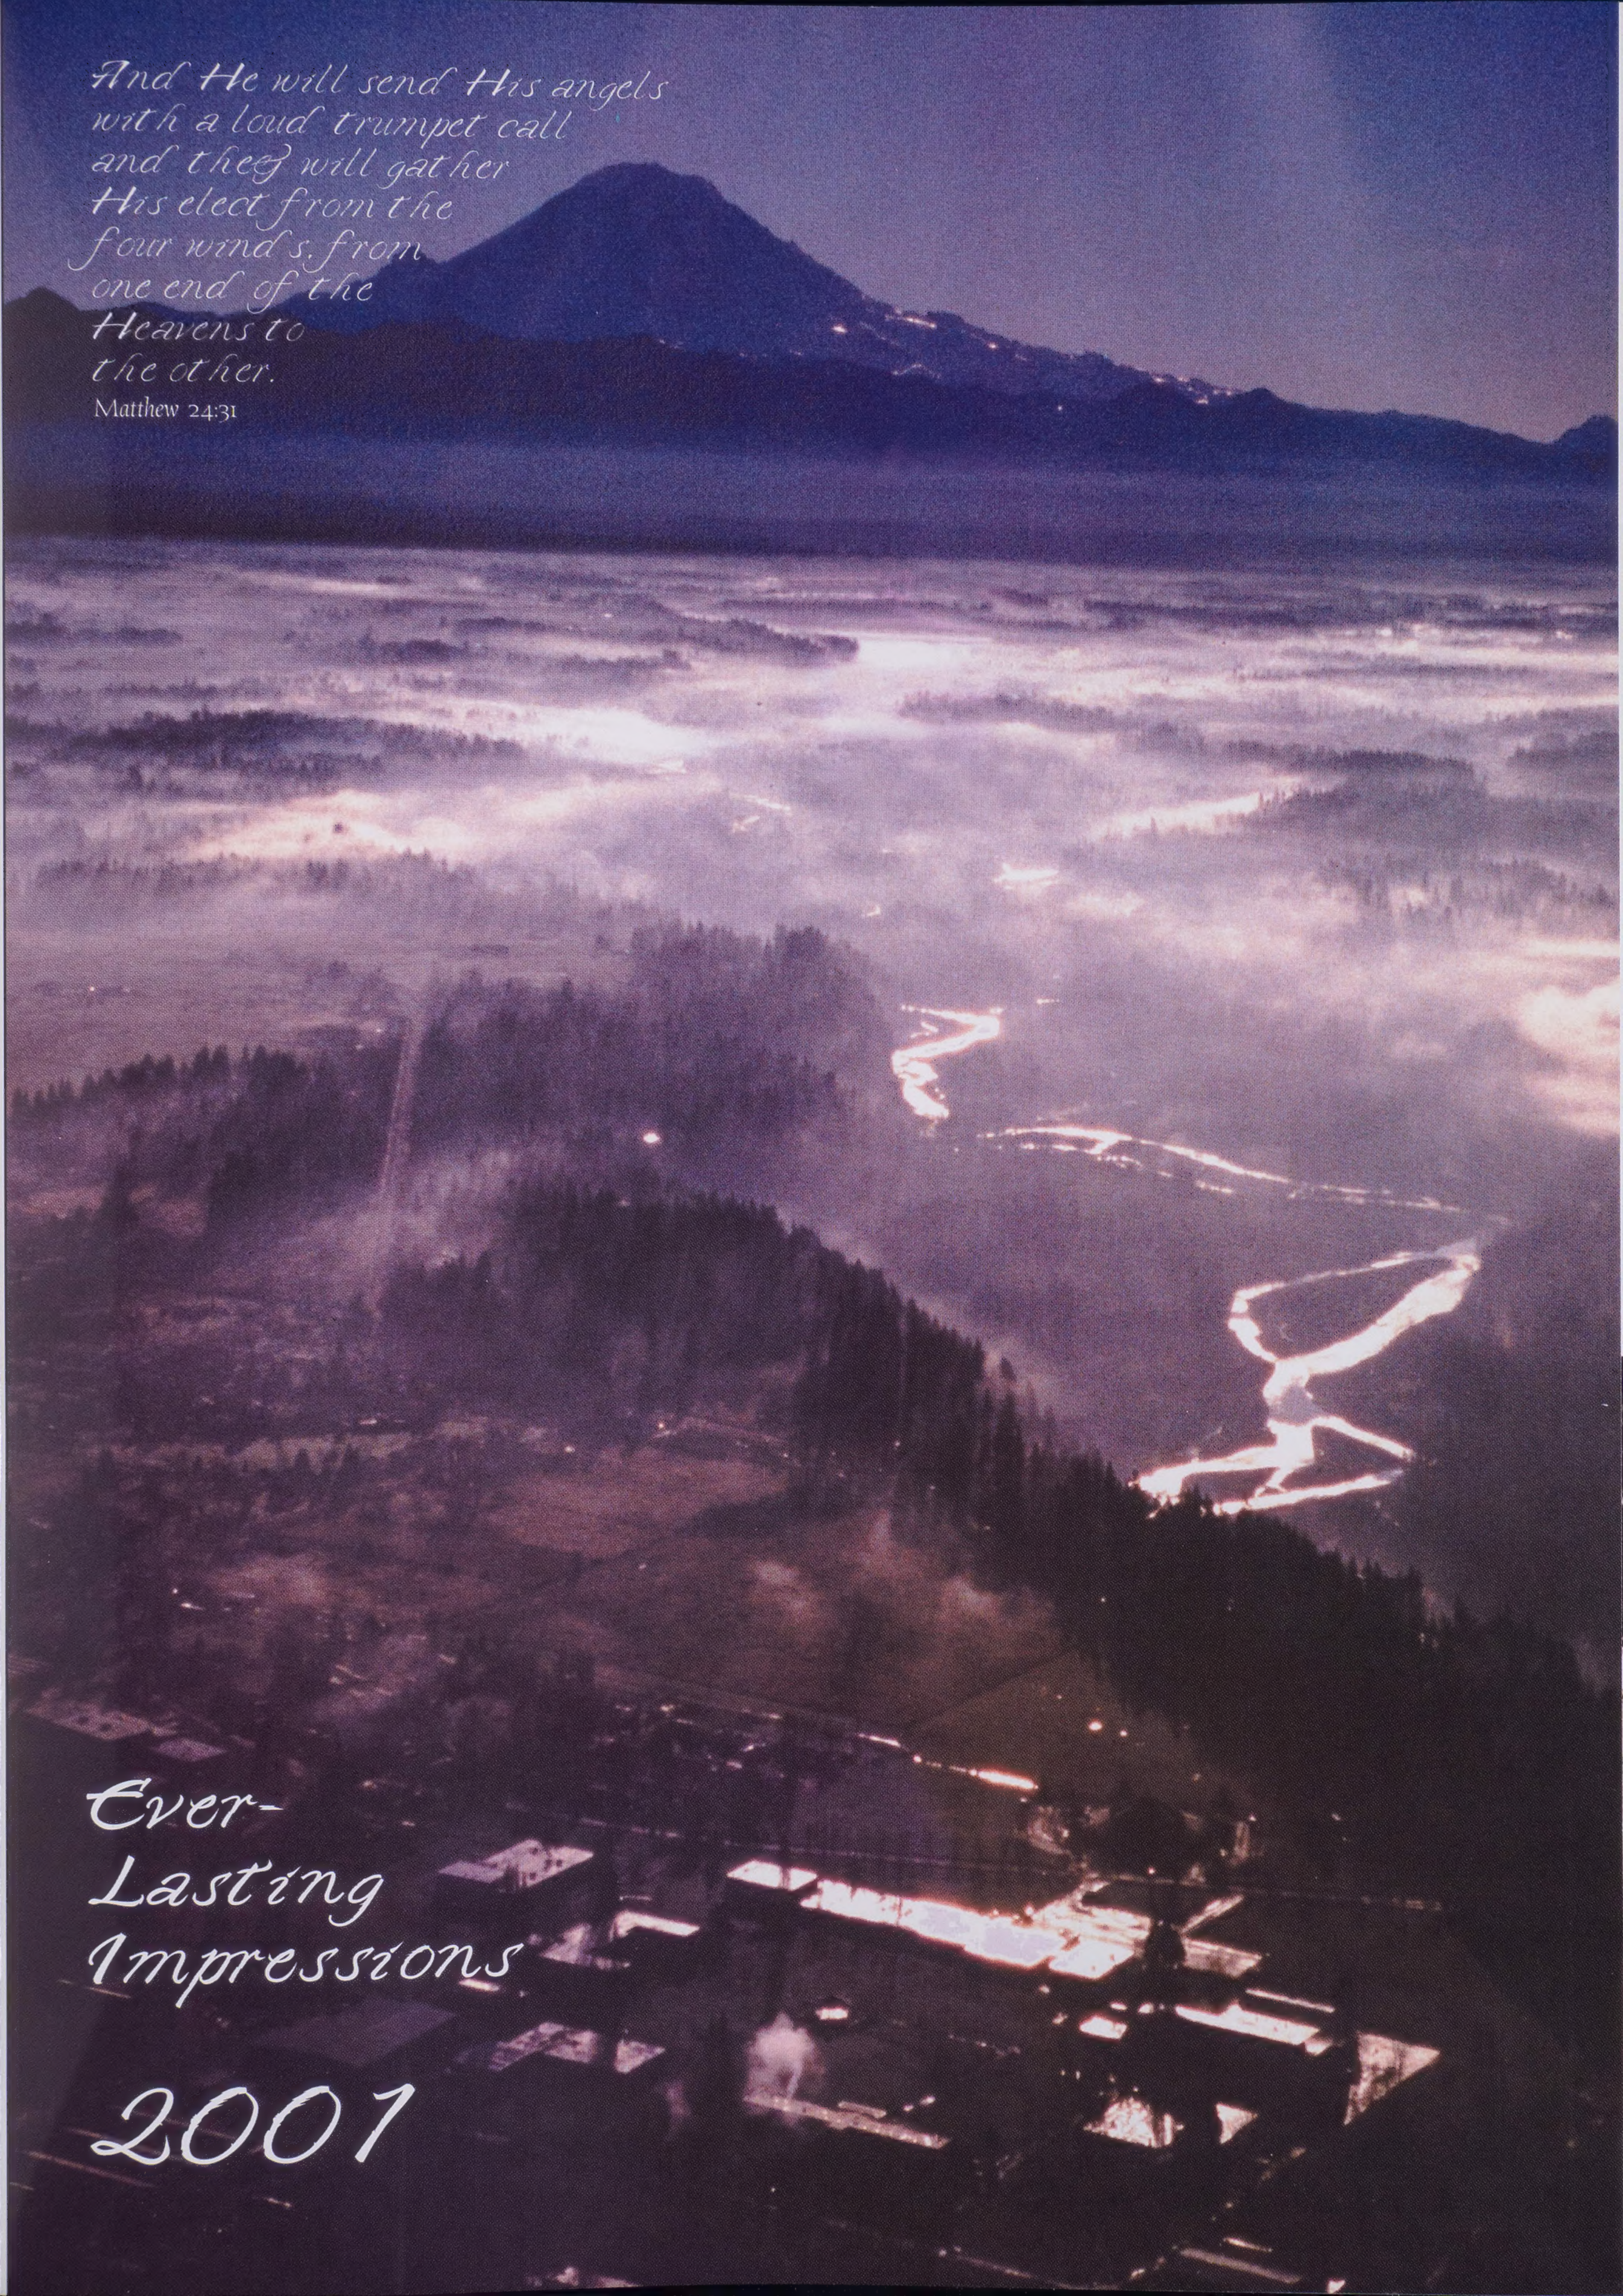

An aerial photograph of a vast mountain valley. In the foreground, a small town with several buildings is visible. A winding river flows through the middle of the valley, reflecting the light. The valley is surrounded by dense forests and mountains. The sky is a deep blue, suggesting dawn or dusk. The overall mood is serene and majestic.

*And He will send His angels  
with a loud trumpet call  
and they will gather  
His elect from the  
four winds, from  
one end of the  
Heavens to  
the other.*

Matthew 24:31

*Ever-

Impressions*

*2007*

# Ever-lasting Impressions

The theme of this year's yearbook is ever-lasting impressions. The picture on the cover was taken with NASA's Hubble telescope and is of the Orion nebula.

The 2000-2001 Rainier Vista staff chose this theme and picture because we believe it represents this year at Auburn Adventist Academy. Ever-lasting impressions describes the memories we will take with us and remember for years to come. The things we learned from teachers, from friends, and most importantly about God; the trips we took, the classes we struggled through and the week of prayer that changed our lives--these are all impressions that we will take with us and are ever-lasting.

The picture of Orion is to remind us what Auburn Adventist Academy is really about--to prepare us for Jesus' second coming when we will travel through the heavenly galaxies to our ever-lasting home. The impressions we have taken from this year will prepare us for that day.

# *Academics*

*Academics—it's the reason we go to school. Auburn Adventist Academy offers many different classes ranging from international foods and woodshop to physics and calculus. What will you remember about these classes? Will you reminisce about the late night studying for that chemistry test or the time you procrastinated on your Bible project and learned that it is possible to memorize a chapter of the Bible in one night?*

*Hopefully we will also remember the way our teachers taught from a Christian perspective, and how we learned about God in other classes besides Bible. This is what makes Auburn unique from other high schools. We are blessed that as students here we all have the opportunity to learn in a Christian environment. These opportunities we have enjoyed at Auburn will leave ever-lasting impressions.*

# Organizations

Brittany Richards, along with the other ASB officers, planned the costume party. --Photo by J. Hsu

What would Auburn do without organizations? Not very much. The organizations are essential to providing some of the most fun activities, memorable experiences and the things that make going to school at Auburn more than classes and homework.

Throughout the year, Sylvan and Wind Ensemble give us beautiful music which they share in many churches and even at the state capitol.

ASB plans the Christmas banquet, costume party, Sunset Lake outings, the Fall Festival and many other activities. Zeta Kappa and Casa Loma plan dorm parties and a banquet.

*Direct Connections* and *Rainier Vista* staff members work all year long to give the school news and record memories.

Auburn would not be nearly the school it is without the tireless work put in by the students and faculty responsible for keeping the organizations running. Their hard work and leadership leave us with an everlasting impression of what God can accomplish through dedicated students and their sponsors.

*ASB memories are full of wild and crazy times. I love how they bring our school closer together. --Jennifer Hartlee*

# ASB

Ms. Worley and Natalie Cortinas relax together at Sunset Lake. --Photo by S. Lu

# *Activities*

Activities are probably what we will remember most about our days here at Auburn. These activities fill our days and weekends with chances to get better acquainted with our peers and our God.

This past year at Auburn, we have participated in activities such as faculty home vespers, where students and teachers are able to connect on a more personal level.

And who could forget the banquets and the date that made each evening so memorable? Or the costume party where couples got lost in the maze?

Without these activities, our school experience would be filled with one unexciting day after another. Luckily, we have activities to break the monotony and provide us with the opportunity to be challenged, not only physically, mentally and spiritually, but also socially.

# *Sports*

What part of school creates a bond that makes people want to work towards a common goal? What part makes people jump to their feet in school spirit and let out a deafening cheer of support? It's sports.

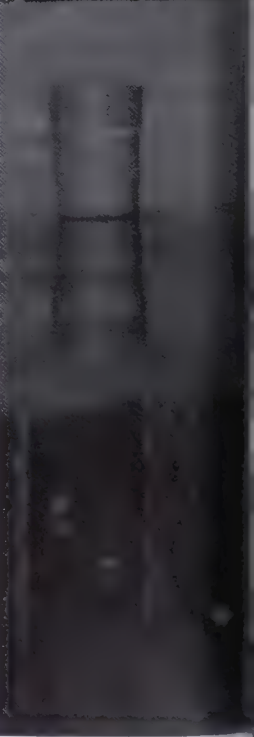

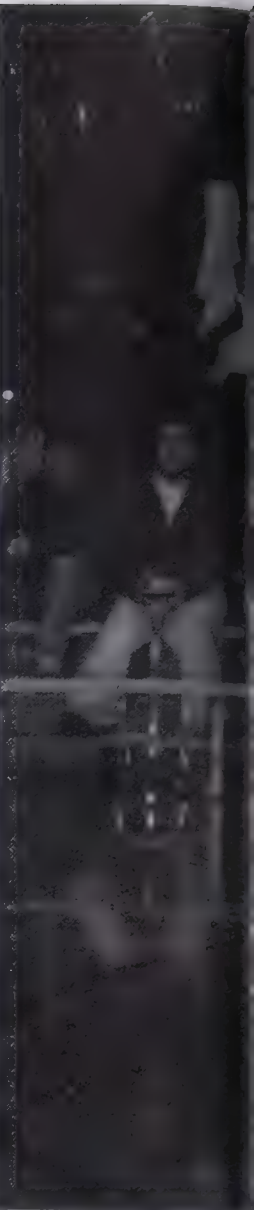

Auburn offers a variety of sports in which students can participate. From volleyball to basketball and even intramurals these athletes volunteer their time to represent our school. They endure hours of practice, some very early on Sunday mornings, and grueling games when many other things could be done. But these games and the athletes give dorm and village students alike a chance to escape from the grind of school and socialize with friends.

Sports offer students something else to do and being out of the dorm is an added bonus. The sports at Auburn bring the school together and give us a special sense of accomplishment and pride in our school.
